FRESHMAN TEAM TIES PINKERTON ACADEMY

First Game of Season for Yearlings Played on Muddy Field in Torrents of rain

Fighting through four periods of muddy play, the freshman football team held the Pinkerton Academy eleven to a scoreless tie in the first game of the season last Saturday afternoon on Memorial Field.

When the whistle blew at 2.30, the rain was coming down in torrents, making the turf heavy and the ball slippery. The game throughout was featured by fumbled passes and by end runs terminating in long slides on the wet grass.

Freshmen Kick

The freshmen kicked to Pinkerton's twenty yard line, and Bartlett, ran the ball back fifteen yards. The first few minutes of play were slow, both teams receiving penalties for being offside. Pinkerton punted, and the Frosh began a march down the field, only to be stopped by a fumble by Rice, which a Pinkerton man recovered. Pinkerton tried a few unsuccessful line-bucks, then kicked. Crins, the Frosh quarter, fumbled, recovered, and was downed in his tracks. Beginning another march, '29, was stopped by the end of the period.

Roy Slips

In the second quarter, after an exchange of punts, Sandy Roy, whose line-plunging ability was a feature of the game, broke away on a long end-run. With almost a clear field ahead of him, he slipped as he cut in, losing one of the freshmen's few chances to score. During this period Hatch and Theodos made pretty work of opening holes and making hard, fast tackles behind the line. The end of the half left the ball near the center of the field.

Starting the third quarter, the freshmen again kicked, and the Pinkerton back was downed before he could move. The Frosh took the ball on downs, rushed, fumbled, received a punt, attempted a pass, then kicked, the ball ending up on Pinkerton's 25 yard line. Twice the Freshmen were in a position to score a field goal, but they did not try the play. Whitney and Stewart, Pinkerton ends, and Farrell, Frosh tackle, did good work during this period.

Several long gains for the freshmen by Crins and Roy gave them a chance to score, but line plunging proved ineffectual. Pinkerton kicked out of danger, and the ball was brought back to the twenty yard line. The game was called, however, before the freshmen could push the ball over for the required score.

Steady Passing

The steady passing of Wettergreen, Frosh center, saved the day for the '29ers. Handicapped by cold hands, and a slimy ball, his passes were even and accurate throughout the game.

Coach "Lang" Fernald made no substitutions during the entire game, in spite of the number of reliable men on the bench. Coach "Dan" Metcalf substituted only once, when he played Ela at tackle, after Baker twisted his ankle.

The summary:

Freshmen						Pinkerton					
Hatch, re						R. Whitney, re					
Theodos, rt						Tyler, rt					
Walls, rg						Davis, rg					
Wettergreen, c						Dickey, c					
Lawrence, lg						Dickey, lg					
Farrell, lt						Barker, lt					
Young, le						Ela					
Crins, qb						Stewart, le					
Roy, lhb						Gallion, qb					
Rice, rlb						Bartlett, lhb					
Paeolino, fb						Pillsbury, rlb					
						L. Whitney (Capt.) fb					

Score by periods:						Total					
Freshmen	0	0	0	0	0	0					
Pinkerton	0	0	0	0	0	0					
Referee—Jim McCarthy											
Umpire—Lt. Wm. Darney											
Linesman—Alex Bogle											
Time—Four ten minute quarters											

SECOND INFORMAL TO BE HELD SATURDAY EVENING

The second informal of the year will be held in the men's gymnasium next Saturday evening. Music will be furnished by a campus orchestra.

Some of the books on display are: "What Shall I Be?" by Cayton H. Ernst, Catherine Filene's "Careers for Women", "Vocational Guidance" by J. A. Puffer, "The Youth and the Nation" by H. H. Moore, and "Vocations for Girls" by E. W. Weaver.

PLANS PROGRESS FOR DAD'S DAY

Many Fathers Expected to be University Guests New Campus Tradition

All Students Urged to Send Personal Invitations—Football Game with Rhode Island State Feature of Program—Good Time Promised

To make Dad's Day a complete success and the beginning of a worthwhile tradition, every student is asked to write to his or her father within the next day or two and urge him to come. President Hetzel has sent an invitation to each father and many parents will welcome the opportunity and come without urging, but others will wait to see whether their son or daughter really wishes them to come. If they receive no word from son or daughter they will feel that their chance of having an enjoyable day is not too good.

Everyone who comes will have a good time. Some parents have never seen the University and most of those who have been in Durham have seen the University on Sunday or registration day. Few have seen it in operation. Fewer still have gone over the entire University and had each department explained. What is an old story to students will be absorbingly interesting to their fathers. At least it has been so to those visitors who have been shown over the institution. The Dads will enjoy meeting President Hetzel and those members of the faculty to whom they have entrusted the education of a son or daughter, and the President and the faculty will be glad to become acquainted with the fathers. It is surprising the nice things a professor will say to a father about a student. And there can be no doubt about every father's enjoying the game with Rhode Island. Seats will be reserved so that fathers and their sons and daughters may sit together. If you haven't taken your father to a good football game, you owe it to yourself to do so. Fathers get more excited than students themselves. It will be a great day for the first home game with 1300 students and a host of Dads to do the shouting.

The University has inaugurated Dad's Day because it believes that parents want to know more about their children's alma mater and because it wants to have every parent know what New Hampshire is doing and hopes to do. It wants every parent to feel that the faculty is not a machine but a group of people who have the students and parents best interests at heart and with whom parents can get in touch whenever it would be helpful. It wants every parent to feel a personal interest in the University and to be as proud of it as students and alumni are. The University asks the cooperation of every student in making the day a success: first, by urging his or her father to come; secondly, by helping on Dad's Day to give the fathers a good time.

It may be that in some cases the University has an incorrect or incomplete address. If any student finds that his father has not received an invitation, will he please report the fact to the President's Office. Students whose fathers are not living are urged to invite the male person who stands nearest to him, whether relative or not, and to let the President's Office know so that the President too may invite him.

TO HANG PHOTOGRAPH OF MacDOWELL IN NESMITH

An autographed photograph of Edward A. MacDowell, considered the finest in existence, will be hung soon in Nesmith Hall, the headquarters

INTRA MURAL GAMES NOW ON NEW BASIS

Representatives of 11 Fraternities Adopt Constitution Divorcing Sports From Physical Education Department

Intra mural sports at the University were organized on a firm and permanent basis last week, when representatives from 11 fraternities met at the executive offices of the Athletic Department and elected Gene Tetzlaff, '26 of the Theta Chi fraternity president, Edward Vatter, '26, of Lambda Chi Alpha vice-president, and Edward Davis, '27 of Phi Mu Delta, secretary-treasurer of the Intra-Mural Athletic Association of the University of New Hampshire, announcing as its object in the constitution which was then adopted, the promotion and maintenance of "intra-mural athletics for the students of the University of New Hampshire,—subject to the approval of the Department of Physical Education."

Allan Currier, '27, of the A. T. O. fraternity, and Charles Fogg, '26, of (Continued on page 2)

NEW INTERFRATERNITY SCHOLARSHIP CUP GOES INTO COMPETITION FOR FIRST TIME

Trophy, Gift of Wilfred Osgood, '08, Bigger and More Beautiful Than Former One. No Greek Letter Society Bidding Solely From One College Eligible. Old Prize Becomes Permanent Property of Lambda Chi Alpha

THE OLD AND THE NEW

With the old cup passing permanently into the possession of Lambda Chi Alpha fraternity, a new interfraternity scholarship cup goes into competition this year.

The new cup, much larger than the old one, is the gift of Wilfred Osgood, '08. The rules of competition provide that the new scholarship trophy shall become the property of the fraternity that wins it three times in succession. Only fraternities bidding from the University at large are eligible to compete. This ruling prevents those groups whose membership is drawn solely from one college from trying for the cup. Only fraternities occupying a house on the campus for at least two years are eligible.

In presenting the cup, Mr. Osgood made it larger and better than the former one in order to insure active competition. It is felt that this new trophy is sufficiently large and beautiful to start keen rivalry among the Greeks in scholarship.

of the music department. This photograph was given to the University with one other five years ago, by Mrs. MacDowell. It was turned over to Robert Mantion this week by Mrs. Marcia Sanders, matron of Smith Hall, who has taken care of it since it was given to the institution. The photograph is a very clear one, in an oak frame with the famous composer's signature in the right hand corner.

VARSITY TAKES OPENING GAME AT NORTHFIELD

O'Connor, Foster Shine for New Hampshire Team

NORWICH HAS GOOD DEFENSE

Game is Played on Slippery Field. Crowley and Rice Star for Norwich While Abbiatti and Callahan Play Well for the Blue and White

By E. A. Tetzlaff

The New Hampshire varsity football team opened its season last Saturday afternoon by defeating Norwich University to the tune of 15 to 2 at Northfield, Vt. The game was played on a wet and soggy field which slowed up the players considerably and prevented any long runs being made. Captain "Eddie" O'Connor, Nicora, and the veteran center, "Ted" Foster, starred for (Continued on page 3)

PRIZE LIST WITH WINNERS LAST YEAR

Money and Medals Included in Rewards Offered for Proficiency in Studies and Athletics

At the last convocation President Hetzel urged that members of all classes enter into competition for the many prizes which are offered annually by the University. In connection with this desire, The New Hampshire is publishing a list of the prizes with the names of the winners for 1925 who were presented with them at the Commencement exercises in June.

Bailey Prize of ten dollars, offered by Dr. C. H. Bailey of Gardner, Mass., and E. A. Bailey of Keene, for proficiency in chemistry. Won by Harry James Hosking '25.

Bartlett Prize of fifty dollars, offered by former Governor John H. Bartlett, '20 hon., of Portsmouth, to that member of the junior class who ranks highest in scholarship for the year among those men who have earned at least one-half of their expenses since entering the University. Won by Haydn Sanborn Pearson '26.

Chase-Davis Memorial Medals offered by the Men's Glee Club in memory of Carl Chase '09, of Webster, and John Worthen Davis '11, of Concord, who were drowned in Great Bay, December 7, 1908. These medals are awarded for proficiency in both athletics and scholarship. Gold medal won by Marshall Campbell '25. Silver medal won by Daniel Metcalf, '25.

Katharine DeMeritt Memorial Prize of twenty dollars offered by Dean Elizabeth P. DeMerritt in memory of her daughter of the class of 1908 to that junior girl who, during her three years in college, has shown the greatest aptitude for helpful leadership and cheerful loyalty combined with strength of character and scholastic attainments. Won by Grace Cunningham '26.

Dietrich Memorial Cup given by the class of 1916 in memory of Rosina Martha Dietrich, a member of the class, to be awarded each year to the girl who attains the highest scholarship in her junior year. Won by Dorothy Hebert '26.

Erskine Mason Memorial Prize, the income of an investment of one hundred dollars offered by Mrs. Erskine Mason of Stamford, Conn. in memory of her son, a member of the class of 1893, to that member of the senior class who has made the greatest improvement during his course. Won by John Sawyer, '25.

Hood Achievement Medal offered by Charles H. Hood of Somerville, Mass., to that member of the senior class whom the members of the three upper classes choose as giving the greatest promise of becoming a worthy factor in the world through his character, scholarship, physical qualifications, personal popularity, leadership, and usefulness as a man among men. Won by Frederick Gray, '25.

Hood Dairy Cattle Judging Medals offered by Mr. Hood for excellence in judging dairy cattle. First prize won by Donald Pettee, '25. Second prize won by Paul Morse, '25. Third prize won by Paul Farnum, '25.

University of New Hampshire Military Honor Medal offered by Major S. G. Eaton and the members of the S.A.T.C. on duty at the University in December, 1918, to the student who has shown those characteristics which would make him of greatest value to his country as a soldier. Won by Joseph Horn, '25.

Chi Omega prize of ten dollars offered by the Chi Omega sorority for the best thesis written by a woman student in Sociology. Won by Helen Booth, '26.

Phi Mu Medal offered by the Phi Mu sorority to that senior girl who has shown greatest excellence in physical education, scholarship, democracy, loyalty, and helpfulness in college activities. Won by Salome Colby, '25.

Pi Gamma Prize of twenty-five dollars offered by the Pi Gamma honorary fraternity to that senior who ranks highest in biological subjects throughout the entire four years. Won by Ethel Cowles.

Inter-Fraternity Scholarship Cup offered by Wilfred A. Osgood, '14, to be awarded each year to that fraternity whose members have the highest scholastic standing. The cup will belong permanently to the fraternity winning it three years in succession. Won for this year by Theta Upsilon Omega.

Inter-Sorority Scholarship Cup

\$50,000 INCREASE IN UNIVERSITY INCOME FOR '27-'28

Taxation Figures Show Revenue Jump Probable

RESULT OF MILL TAX

Forecast From Property Valuation Statistics Released in Concord This Week

If the value of the property in the State increases during 1926 as it increased during 1925, the Mill Tax Law passed by the Legislature last spring, chiefly through the efforts of President Hetzel, will yield the University in the biennial period beginning Jan. 1, 1927 an income of nearly fifty thousand dollars in excess of the income derived from the same source during the 1925-26, according to tax figures released in Concord this week to the Associated Press.

The assessed valuation of property in the State as of April 1, 1924 was \$585,477,877. The income from the Mill Tax law therefore will be \$585,477.87 yearly for this year and next. The valuation as of April 1, 1925 was \$596,975,634 or an increase of more than eleven million dollars. Assuming the property values will increase next year at the same rate the assessed valuation on April 1, 1926 will be in excess of \$610,000,000. The income derived from the Mill Tax during 1927 therefore will be more than \$610,000., or an increase of more than \$25,000 over the amount received this year. Figuring on the basis of biennial periods, the University will therefore be richer in 1927-28 to the extent of nearly fifty thousand dollars because of the increase in property values this year. These figures are in addition to the amounts the University receives from the State to meet Federal appropriations and extension work charges.

Although the sum the State will pay the University for the biennial period beginning Jan. 1, 1927 will be larger than ever before, it will be more than taken care of by the increase in tax revenue the State receives. Taxes assessed in 1925 amount to \$15,808,552.90, or an increase of \$971,410.97 over the amount for 1924. This figure is well in excess of the sum the State will pay the University under the terms of the Mill Tax law.

The total property valuation of the State is affected slightly by fire losses. During the first six months of 1925 these amounted to approximately one million dollars. Eighty-five percent of this loss was covered by insurance.

"DUKE" PEASLEE ELECTED CAPTAIN OF TRACK TEAM

"Duke" Peaslee was elected captain of the 1926 track team, Tuesday afternoon. Peaslee has made letter in cross country and in track. His special event is the mile run.

Calendar of Events

Saturday, Oct. 10

Varsity Football: New Hampshire vs. Colby College at Waterville, Me.

Varsity Soccer: New Hampshire vs. Northeastern University.

Freshmen Football: Frosh vs. Tufts Frosh.

Sunday, Oct. 11

10.00 p.m. Celebration of the Holy Sacrifice of the Mass, Morrill Hall.

10.45 Community Church, an Edith Carvell service.

7.30 Mr. and Mrs. Lovell are giving an at home service for the students.

Monday, Oct. 12

4.00 p.m. Freshman Cross Country: Frosh vs. Tilton School.

Tuesday, Oct. 13

3.00 p.m. University Folk Club meets at Smith Hall. Reception to new members.

offered by the Alpha Xi Delta sorority having the highest average in scholarship throughout the year. The cup was won permanently this year by the Alpha Xi Delta sorority, which has won it three years out of five.

WILL YOU BE THERE?

Will you be there when the first rally of the season starts off with a bang in the Franklin theatre next Friday night? Will you be there to answer the first call your Alma Mater makes on your college spirit this year?

The rallies in the past have perhaps not held enough interest to make them worthwhile turning out to. The first rally this year should be reverse; it should be so interesting that you cannot afford to stay away. The Student Council has devised a plan of class rallies which should solve the problem. Briefly, of the four rallies to be run by the Council this year, each class in the University will handle one. The first, next Friday night, will be turned over to the seniors. It is expected that they will provide a series of amusing stunts that will keep everyone on the edge of his seat.

The success of this scheme of class rallies depends upon two things, the loyalty of the student body and the rivalry between the classes. The rivalry between the classes is definite enough to depend on in such matters. No class is going to let another put on a better stunt if it can help it. The loyalty of the student body is just the thing in question. Will YOU be there?

The Student Council, and especially Mr. Steere, is to be congratulated for the arrangement of the mechanical details. No speaker is to be allowed to talk more than three minutes and the speaker of the evening only five. The rally will last exactly one hour. When the hour is up the rally will be over whether it is finished or not. In securing the Franklin theater for rally, the Student Council has achieved a coup. This alone with the system of class stunts to put the crowd in good cry, should insure the success of the rally. Only one other factor is to be considered. That is, WILL YOU BE THERE?

EIGHT RECEIVE BIDS TO HONORARY BIOLOGY FRAT

The Pi Gamma trip to Mount Chocorua which was to have taken place last Saturday and Sunday has been postponed until this coming week-end. According to custom, this trip will mark the pledging of the new members of the fraternity. The following have received bids: Grace Cunningham, '26; Nathalie Moulton, '27; Dorothy Burpee, '27; Pauline Stewart, '26; Hazel Eaton, '27; and Carl Dahlgren, '26.

FINANCE COMMITTEE PLANNING Y DRIVE

Members of the Finance Committee of the Y.M.C.A. are busy planning for the annual campaign drive, which is to last for four days, commencing Wednesday afternoon, October 21st.

With the increase of students at the University, the work at the Y.M. must necessarily expand and its activities must be broadened. Thus in order for this phase of work to keep step with the other phases of work in the University, and in order that the Y do its work efficiently and properly it must have funds to carry the work on.

The Y is going out to raise \$800 this year. The canvassers will go out to get a minimum of two dollars from each male student.

WOMEN NOT FITTED FOR INTERCOLLEGIATE PLAY

By Mayme MacDonald

Women and intercollegiate athletics. A combination that can only be successful today when the women are spectators and not participants. Some will agree with that statement and many will not. It is rather an abrupt conclusion but has been reached by the writer after several years of careful study.

The old theory that girls are not strong enough to stand strenuous competition has been exploded. And justly so. Girls are so constructed that they rarely play harder than they can. Perhaps it is a bit of laziness that makes them slow up when conditions get uncomfortable. They get excited, to be sure, but who doesn't many times a day? The excitement soon passes and no harm is done. Any participant who knows the game he is playing is, as a rule more collected than the looker-on. So I shall not say girls are not strong enough to engage in intercollegiate competition.

In athletics there are always two viewpoints involved. That of the participant and that of the teacher. In most cases they differ. The participant thinks of himself first (and a natural thought it is) while the teacher thinks of the game, its benefits, and welfare. Consequently the viewpoint of the educator is more inclusive.

There are few colleges that sanction intercollegiate competition for women and from all appearances such competition is successful. But a close-up of the situation will reveal its shortcomings.

Physical education programs are gradually pushing out the old time stupid activities such as formal gymnastics, esthetic dancing, and mass corrective exercises, and putting in their places games, sports, natural gymnastics, natural dancing, and individual corrective exercises. That very fact shows that physical education is becoming a real part of education. Practically every girl at some time in her college career is enrolled in some game activity.

What really happens in institutions sanctioning varsity teams is this. Most girls are not naturally interested in athletics. They have to be led up to the sport and cajoled a bit. The instructor or supervisor has all she can do to stir up temporary interest. Who carries on this interest? The very girls who are adept. They are the leaders as a rule. The average college girl needs a leader of her own age. The instructor does not suffice. These leaders are, in the meantime, separated from the general number and set aside by themselves. They go thru monotonous sieges of strenuous practice with a trip to some institution in view. The interest among the other girls is haphazard. The very ones who need the attention of the instructors and leaders are left to work out their own problems. They receive some attention but the results are of secondary importance. There is very little interest shown in interclass and intersection competition. The instructor who takes the varsity teams becomes a coach and as a coach her purpose is very limited. So far from an educational standpoint I believe interschool games defeat their purpose in as much as they take away more than they give.

What I have said concerning lack of interest shown within an institution where there are varsity teams is only one of several reasons for abolishing intercollegiate competition for women. But I think it is the most outstanding reason. In order to picture the situation let us suppose that all women's colleges and coeducational institutions sanctioned intercollegiate athletics for women. From the very beginning of the school year until commencement all efforts would be placed in those girls who were to go forth to bring victories for their college. As I have said before instructors would become coaches and their efforts would go toward turning out winning teams. The coach situation today among men is a serious one and no doubt women coaches would face the same problem. There would be an effort to get the most efficient coaches and of course the prices of these would soar. Miss Smith who had such fine success at so-and-so college would be induced to come to an Eastern institution if the salary were satisfactory. Such a situation is bound to occur if girls on teams are to represent colleges. No institution wants a losing team and a successful coach would come high.

There are very few colleges today that can or will afford more than four or five women physical education instructors. And a great many must get along on two or three. Where can the time or people be had to train and coach the comparative few who would be playing on varsity teams? Efforts that should be given to the girls who need the work would be given to the few who could get along well without it. The very same thing is evident today

TRUTHFUL JAMES ON VARIETY OF THINGS

Eggs Appear Three Times on Military Trip to Lake Chocorua According to Eyewitness

By John Cassily

A start from Durham in the rain. Bill Gelpke forgetting his cigars. Those slippery roads. A view of the mountain across the Lake. A camp site after a year's absence. Captain Pettee cooking steak over an open fire. The annual arrival of Royal Brown and the champion dog of the Northland. "Yes sir, boys, there was 13 bar killed in these parts last week." That dinner; Bill Gelpke and his Uke, Bunny Bryant and his hymns. The barn dance. Bill Gelpke has changed his role. He is now a revenue officer. Bill secures positive evidence. Stan King doing The Lady of the Lake. (Note: The Lady of the Lake is a dance.) Taps. Six uneventful hours elapse. Revielle. Camp Devens was never like this. The Chemical warfare demonstration. The Three Musketeers as their heads come through the window. Once

Breakfast! The eggs are seen for the first time. Paul Tracy is in the lead up Liberty Trail. The boys take Sergeant Brown for a walk. The Sergeant claims the water in the brook is not only wet but very, very cold. Bunny Taylor, Ralph Taylor, Sibley, Bill Gelpke, and the Sergeant start guerilla warfare. The mountain climbers return. Sergeant Brown and an amphibian become acquainted. Baked beans!

Twice

The eggs are seen for the second time. Captain Pettee throwing an egg at Bunny Taylor and making a direct hit on his own car.

The departure is made from camp, with no casualties reported. Captain Pettee's car is fired upon without warning. The supply train is fired upon but returns the enemies fire. Troops under Captain Pettee, by means of barricades are successful in retarding the progress of their speedy foe. The evolution of the tomato as a munition of war.

Three Times

The eggs are seen for the third time. Paul Tracy proves himself as accurate with an egg as with his trusty six-gun. The amusing detail was that Eddie Vatter did not own the sweater after all. Ralph Taylor says that ricochets do not count but Tracy must be paid in full. Durham is reached with no fatalities. The trip was voted the best ever. (Note: Another trip is planned for this week-end.)

among college men if supervised physical education aims to include all students in wholesome activity the combined efforts must be placed on all, not a chosen few.

Whenever a team plays an outside team, money is involved. Football is about the only sport that pays these days. And it usually does a lot toward financing other branches of sport. Girls' athletics never pay and the possibility of ever paying is very small. So the finance end of intercollegiate athletics for women would be a most troublesome problem. It would be very hard to convince a board of trustees that the yearly budget would call for a thousand or more dollars for travel in addition to other money items. Such are the problems a department of physical education must take into consideration.

Interschool, intercollegiate, intersectional, and international competition, takes a great deal of time as well as money. There aren't many students who can well afford to stay away from their classes but if there are trips to be made the classes must be missed. And if a person is an exceptional athlete he will continue to be among those absent throughout the year. Once in a while an athlete will graduate with scholarship honors but for every one of these there are hundreds who barely skim through and many who cannot make the grade. I do not believe the average student can do justice to his studies and at the same time spend so many hours on the athletic field going through strenuous practice that ceases in time to be play. And the majority of college athletes are average students.

The majority of college women do not desire intercollegiate athletics. That has been evident by resolutions adopted by the Athletic Conference of American College Women. Never before have colleges offered such inclusive athletic programs for women. The introduction of intercollegiate competition would tend to break down this good work and bring about situations as I have attempted to list them.

Physical activities must be a part of the curriculum not the curriculum a part of physical activities.

INTRA-MURAL GAMES

(Continued from page 1)

the Alpha Gamma Rho fraternity, were elected to the Board of Control, which includes all the officers of the Association and Henry Swasey as the representative from the Department of Physical Education.

The action came as the culmination of several years' effort by Coach Swasey to organize sports among fraternity men. For several years the fraternities have conducted leagues in basketball, baseball, boxing, and other sports. Each league has functioned separately under the direction of Mr. Swasey with the assistance of representatives from the several fraternities. The formation of the new league was preceded by an intensive study of intramural sports in all the leading institutions of the country, and the constitution and by-laws which were adopted include the best suggestions from the many leagues studied, especially those which seemed especially adapted to the conditions here.

The new Association plans to promote basketball this term; winter sports, hockey, and boxing during the winter term, and baseball, tennis and track in the spring. There are 11 fraternities now represented in the Association and the other two fraternities are expected to join at once. The Association plans to divide the fraternities into two leagues in each sport played, each team to play every other team in its league one game, the winners of the two leagues to play a championship series of three games for the interfraternity title. Under the new plan teams formed in dormitories by non-fraternity men may be represented in these leagues.

The Constitution and by-laws of the Association follow:

CONSTITUTION

Art. 1 Name.

This association shall be known as the Intra-Mural Athletic Association of the University of New Hampshire.

Art. 2 Object.

To promote and maintain intramural athletics for students of the University of New Hampshire—subject to the approval of the Dept. of Physical Education.

Art. 3 Membership.

This association shall consist of a representative from each fraternity on the campus and representatives of groups of students approved by the association.

Art. 4 Officers.

Sec. a—The officers shall be a President, Vice-President, Secretary-Treasurer. These officers besides two additional members of the association, duly elected, shall form the Board of Control.

Sec. b—They shall be elected for a term of one year.

Art. 5 Meetings.

Regular meetings be held once a term, on or before the first Monday after registration at the call of the President.

Special meetings shall be called upon written request of three members or at the call of the President.

Eight members shall constitute a quorum.

Art. 6 Board of Control.

The officers of this association with a member of the Dept. of Physical Education shall have general charge of the affairs of the Association.

The Board of Control shall have power to fill any vacancies which might occur, until the next regular meeting.

Art. 7 Protests.

The Board of Control shall have power to interpret the Constitution and By-laws in cases of protests and complaints. In case any member of the Board is directly interested the President shall appoint a disinterested person to take his place.

Art. 8 Funds

All necessary expenditures shall be left to the Dept. of Physical Education and the Board of Control. No money may be expended without the consent of the Department advisor.

Art. 9 Amendments.

Two thirds vote of all the members of the Association shall be necessary to amend the Constitution or By-laws.

BY-LAWS

Art. 1 Eligibility.

To represent a fraternity, players shall be members or recognized pledges of the fraternity. No men who have earned varsity letters in the particular sport shall be allowed to compete.

To represent a non-fraternity or a dormitory team the players shall not be members of any other team or eligible to represent fraternity teams.

Members of a varsity squad shall not be eligible to compete in a league game unless forty-eight hours notice has been given to the Secretary of the Association.

No members of a varsity squad shall be eligible to compete in the league games.

Art. 2 Rules of Each Sport.

The rules of each league shall be drawn up by the Board of Control and approved by the advisory member of the Board from the Department of Physical Education.

Art. 3 Supervision of Controls.

Shall be under the control of the Assistant Manager of the sport, who shall have as his assistants the managers of the respective teams engaged. The Assistant Manager shall also have at his disposal men out for manager competition.

Managers of all teams shall secure equipment from the Assistant Manager of the sport.

Art. 4 Provisions Governing Teams. Each team shall have a Manager, directly responsible to the Varsity Assistant Manager, and a Captain. The Manager shall submit to the Varsity Asst. Manager a list of eligible players representing his organization on or before two days before the opening game of the league.

Art. 5 Failure to Abide by Rules. Teams failing to abide by the rules of the Constitution and By-Laws shall be dropped from the league at a regular meeting—or a special meeting which shall be called for that purpose should such a meeting be necessary.

1925 INTRA-MURAL BASKETBALL RULES

1. Eligibility is limited to members of the various fraternities and men -fraternity organizations who are not on either the varsity or freshman squads in football or cross country.
2. Forfeiture—unless previous arrangements have been made by both managers and the secretary of the league, a game is forfeited on the failure of one team to be on the floor within fifteen minutes of the starting time of the game.
3. Postponed games—dates for postponed games have been made by the committee on schedules. Teams having post-poned will be notified by the secretary of the league the date of the playoff.
4. Freshmen—freshmen recognized as pledges of the various fraternities are allowed to participate in the league.
5. Referees—will be selected from the various basketball letter

(Continued on page 3)

When rural service lines bring electricity to the farmer's door, many of his labor troubles are at an end. Motors, large and small, will do the many chores of farm and farm house for a few cents per day.

The Farm Electrical

Of the six and a half million farm homes in this country, only half a million have electricity.

Still, the advantages of electricity are widely known. But there is more to farm electrification than the installation of motors, lights and heaters. Current must be brought to the farm, and that means many miles of transmission line, supporting poles, transformers, and adequate generating equipment.

Slowly but surely the electrification of American farms is taking place. As farmers learn how to use electricity, rural service lines reach out farther and farther into open country.

Six million farms to be electrified! Here is a vast and virgin field for the application of electricity, with countless opportunities for college-trained men in the technical and commercial phases of this undertaking. And for the agricultural college student and others planning a future life in rural sections, it means a better, bigger, happier life-time now in the making.

Since its inception the General Electric Company has pioneered in the various fields of applied electricity. Today G-E engineers are co-operating with various state agricultural committees in the study of farm and rural electrification. These committees include members of the agricultural college faculties.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for Booklet GEK-1.

VARSITY RECEIVES ALUMNI WELCOME

Vermont Association Entertains With Chicken Dinner After Team Wins Over Norwich

After the New Hampshire varsity football players had twice pushed the pigskin over the Norwich goal line at Sabine Field, Northfield, Vt. last Saturday, they received a warm reception from the New Hampshire Alumni Association of Vermont and an invitation to an informal chicken dinner, which was held at the Maple Wood Inn, Northfield, Vt. Following the dinner, H. A. Holbrook, President of that branch of the alumni, called for impromptu speeches from Coach Cowell, Dewey Graham, a former New Hampshire star football player, Capt. O'Connor, and "Ted" Foster. Cheers and songs followed the speeches until nine o'clock when the squad embarked for Durham in the two B & M busses which were hired for the trip.

The New Hampshire Alumni Association of Vermont is doing very well considering the fact that it has been organized but a short while. The meeting on Saturday was the sixth held by this association, which plans to hold meetings twice a year. Those who attended the game and banquet were Katharyn Aldrich, Katharyn Bouchern, '23, Henry Caswell '19, Lt. Vance Batchelder '17, Beatrice Reed '17, Everett Kelly '16, Hugh Clark '21, Dewey Graham '22, H. A. Holbrook '17, and Mr. and Mrs. Perley Perkins, both of the class of '23.

ALUMNI NOTES

John True, '21, has been transferred from Lowell, Mass. to Tampa, Fla. by the Stone & Webber Corp.

Mr. and Mrs. Alvin T. Dares, '21, announce the birth of a son on Sept. 26.

H. T. Irvine, '18, has started his seventh year as physical director at Collingswood high school, Collingswood, N. J.

R. W. Hutchinson, '18, is at the head of the science department of the high school at Danbury, Conn.

N. D. Paine, '13, has received an appointment as general electrical superintendent for Price Bros. & Co., Ltd. He will have charge of four hydro-electric plants, one hundred miles of transmission lines, and four sub-stations.

Alice Tirrell, '25, is head of the English and of the mathematics departments at Newton Falls, (N.Y.) high school.

Richard Rowell, '22, has charge of installing and operating a testing laboratory, specializing in road materials for the State of Vermont, at Montpelier, Vt.

R. S. Morrill, '18, is teaching in the Malden, (Mass.) high school.

Frederick Lauriat, '24, is with the Fort Worth (Texas) Power and Light Company.

Newton Cox, '24, is teaching physical education and coaching the athletic teams at Franklin (N.H.) high school.

F. W. Bartlett, '25, is with Scholle Bros. Investment Bankers, 5 Nassau Street, New York City.

R. B. Cambell, '23, is in the cotton business with Wellington Sears & Co., 66 Worth Street, New York City.

John Laughlin, ex-'25, is at 66 Exchange Place, New York City, with Lee Higginson & Co., Bankers.

John Halleran, ex-'25, is also in New York City, and is in the mortgage bond business. He is located at 30 Nassau Street.

Mary Hoitt, '25, is teaching home economics in Caldwell (N.J.) high school. Her address is 30 Central Ave., Caldwell, N. J.

John I. Bloomfield, '20, and Miss Alice Boland were married in Derby, Conn., Sept. 28.

Frank Randall, '07, has resigned his position with the Portsmouth Power Co. and has not yet accepted another position.

J. H. Griswold, '20, has obtained his masters degree in education, and is teaching mathematics in Springfield (Mass.) high school.

Carl McKelvie, '22, was married to Miss Marion Reel Sept. 19, at Upper Darby, Pa.

Harry Atkins, '20, has been transferred from the engineering department of the Edison Lamp Works to the East Boston Mazda Lamp division of the General Electric Company, where he will be factory engineer. His address will be 42 Alfred Road, Arlington, Mass.

George H. Batchelder, '21, and Miss Louise Blaisdell of Portsmouth were married last August. Mrs. Batchelder is a graduate of Smith College.

"Al" French, '23, and Mrs. French held a house-party last week-end at their home in Henniker. Among those who were present were: LeRoy J. Higgins, '23, G. W. Weston, '22, and Mrs. Weston (Ruth Colburn, '21).

VARSITY TAKES OPENING GAME AT NORTHFIELD

(Continued from page 1)

The New Hampshire team, while Rice, Crowley, and Molter played well for Norwich.

Although the condition of the field was very bad the game proved to be an exciting one. Many times the backfield men would get started on an end run only to slip in the mud. At that the Blue and White backs got through the Norwich line time after time only to be downed by the second line defense.

Captain Crowley, the Norwich center, was the outstanding star of the game. His best playing came in the earlier part of the game. New Hampshire was held for downs a number of times within a striking distance of the goal line, due chiefly to the defensive work of Crowley, who tackled fiercely and backed up the line like a trojan. In this first period Capt. O'Connor put a beautiful drop-kick over the bar from the 33 yard line.

New Hampshire received the breaks in the first part of the game when the Norwich quarterback picked up a punt on his own five yard line only to be downed before he had gained much ground. A Norwich punt gave New Hampshire the ball on its opponent's forty yard line. A first down put New Hampshire in position to score via air route and "Eddie" missed his first try for a goal from the field. The ball was recovered by a Norwich line-man only to go back to the New Hampshire team due to a fumble by a Norwich back. Another try for a goal was missed and Norwich punted to Nicora, who received the ball on the forty-five yard line. Abbiatti gained twelve yards on an off tackle play. Here the Norwich line bucked up and New Hampshire was forced to kick again. This time the ball went over the bar for the first score of the game, three points for New Hampshire.

The second period was all New Hampshire's. The backfield lived up and the team looked the best at this time. The interference was perfect and the line played better than ever before. New Hampshire took the ball from the middle of the field over the line for the first touchdown of the season, Nicora scoring on a play between guard and tackle.

The best playing of the game was done in the second and third quarters of the game. Each team seemed to be evenly balanced and neither was able to score. At no time was Norwich in a good position to score. The playing was done in the middle of the field and punts were exchanged several times during these periods.

In the last half of the game New Hampshire's team lived up again and another march down the field gave Capt. O'Connor a chance to go over the line for the second touchdown of the year. Score New Hampshire 15, Norwich 0.

It was at this time that one of those misfortunes happened, a bad pass from center, forced "Windy" Davis to score a safety for Norwich. After an exchange of kicks New Hampshire received the ball on its own twenty-six yard line, the ball rolling offside at this mark. But a penalty of twenty-five yards for clipping from behind forced New Hampshire to kick from behind its goal line. The pass from center rolled along the ground and Davis fell on the ball to prevent a touchdown by Norwich. This safety gave Norwich only two points.

On the whole the team did not play the brand of football it is capable of playing. Many times the line charged ahead of the ball, although there were few penalties called for offside play. New Hampshire was penalized twice, once for holding, a fifteen yard set back, and once for clipping from behind. No penalties were called on Norwich.

The next game is with Colby College at Waterville, Me. Although Brown gave Colby a bad beating last Saturday the Maine aggregation will make Coach Cowell's players extend themselves to win. Colby held Brown to one touchdown in the last period of the game last week and showed what it is capable of doing to a weaker team.

Since the game Coach Cowell has gone over the defects in the playing last Saturday and signal practice is being held daily to perfect the new plays which will be used against Colby. The varsity team scrimmages with the freshmen team at least twice a week and the new plays are very effective.

UNIVERSITY EDUCATORS TO ATTEND CONFERENCE

Dean French and Professor Wellman are to represent the University at North Woodstock at the New England Educational Conference on Oct. 8, 9 and 10. The idea for this conference was taken from the political conference at Williams. This meeting consists of the principals and headmasters of secondary schools from all the New England states. Governor Winant and E. W. Butterfield, Commissioner of Education in New Hampshire, are two of the main speakers. The conference is mainly conducted, however, by means of discussion groups with leaders and is to be stimulated by questions. The last day an open conference is to be held with everyone free to take part. The subjects under discussion concern: Educational Movements, Utility Vs. Culture, and Compulsory Education. This conference is expected to be of great value and importance in furthering the Educational Movement of New England.

"It's twice as fast as writing longhand"

STUDENTS say this because with a little practice they soon become speedy writers. Essays are written, notes kept in good up-to-date condition, and letters gotten off quickly and easily.

The New Remington Portable perfectly meets the demands of the student, for it is the lightest, smallest, and most compact of all standard keyboard portables. It is durable beyond words—you'll find it useful for years and years to come.

We will be glad to show you the many advantages of this New Remington Portable and explain our new easy payment plan.

Give me a pipe

. . . and

P. A.!

WHEN Comp. Lit. and Physics 3-B are crowding for attention; when I've just received an over-cut notice from the Dean; when my allowance is a month off and the stub of my check-book confesses a balance of \$9.32, give me a pipe and Prince Albert. I want to be happy!

Trouble's a bubble, they say. And I can prove it . . . with my jimmy-pipe and P. A. Just never was a friend like Prince Albert. Cool and sweet and soothing, P. A.'s true-blue smoke zooms up the stem, knocking troubles for a row of test-tubes.

Never a tongue-bite or throat-parch. Just cool contentment, no matter how hard you hit it up. Give me a grate fire to chase the chill of winter nights, an easy chair and my jimmy-pipe packed with P. A. Nearby, a tidy red tin for frequent refills. I know, Brother, I know!

PRINCE ALBERT
—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

GLEE CLUBS MORE POPULAR ACTIVITY

Membership Doubles With Total
Enrollment of 113—Carol Service
To Be Earlier This Year

The fact that the membership of
the Glee Club has more than dou-
bled this year shows that it is rapidly
rising in favor among the extra-
curriculum activities of the Univer-
sity. The organization now numbers
60 men and 53 women. The increase
in membership allows the club to
broaden the scope of its work and
to facilitate this, a large addition
has been made to the repertoire.

Carol Service Earlier

The Glee Club will have a doub-
le purpose this year. As its first
objective there will be the Christmas
Carols. These will take place on
Sunday, Dec. 13, at four in the
afternoon and Monday evening Dec.
14, at eight o'clock. Because of the
enlarged numbers of the organiza-
tion, the choir loft will be entirely
inadequate to hold the club and it
is planned to use the gallery. There
will be a special organ player and
the directing will be done by Mr.
Manton.

The second objective of the Glee
Club will be the combined concert
given in conjunction with Miss Grace
Leslie as the fourth number of the
Lyceum Course on January 27. This
is a big event of the year for the
Glee Club and it is forecast as one
of the most popular numbers of the
Lyceum Course.

CARTER COMES HERE FROM PHILLIPINES

New Assistant Professor of Infantry
Has Seen Service in Germany and
France. Graduate of West
Point

First Lieutenant Robert F. Car-
ter, Inf. D.O.L. has been assigned
to the Military Department of the
University as Assistant Professor
of Infantry. Lieut. Carter comes
here from the Philippine Islands
where he was attached to the 45th
Inf. Philippine Scouts at Fort Wil-
liam McKinley.

Lieut. Carter was born at Ma-
hanoy City, Pa. July 11, 1899, and
graduated from the High School of
that city in 1916. In 1919 Lieut.
Carter graduated from the United
States Military Academy at West
Point, and served from August to
September of that year in France
and Germany. From September, 1919
to June 1920 he was a student at
the Infantry School at Fort Ben-
ning Georgia.

Camp Jackson, South Carolina,
was the scene of the Lieutenant's
tour on duty, serving there until
October, 1920. From October, 1920
until June, 1923, he served at Fort
Sam Houston, Texas. His next
assignment was with the Philippine
Scouts, from whence he was trans-
ferred here.

FRENCH SOCIETY HOLDS MEETING IN SMITH HALL

A meeting of Le Cercle Francais
was held Thursday, October 1, in
Smith Hall parlor. As it was the
first meeting of the year a program
was not arranged, but an interest-
ing hour was spent in recounting,
in French, summer experiences of
the members. Several prospective
members were discussed and new
plans made for a series of pro-
grams.

FRESHMEN, SOPHOMORES, JUNIORS, SENIORS, ATHLETES

Do You Know? "HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of
Effective Study by WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the
economy of learning, to assist students in securing MAXIMUM SCHOL-
ASTIC RESULTS at a minimum cost of time, energy and fatigue.

... ESPECIALLY RECOMMENDED for overworked students and ath-
letes engaged in extra curriculum activities and for average and honor
students who are working for high scholastic achievement.

Some of the Topics Covered

Scientific Shortcuts in Effective
Study
Preparing for Examinations
Writing Good Examinations.
Brain and Digestion in Relation
to Study.
How to Take Lecture and Read-
ing Notes.
Advantages and Disadvantages of
Cramming

The Athlete and His Studies
Diet During Athletic Training
How to Study Modern Languages
How to Study Science, Literature,
etc.
Why Go to College?
After College, What?
Developing Concentration and Effi-
ciency.
etc., etc., etc., etc., etc., etc.

Why You Need This Guide

"It is safe to say that failure to guide and direct study is the weak
point in the whole educational machine". Prof. G. M. Whipple, U. of
Michigan.

"The successful men in college do not seem to be very happy. Most of
them, especially the athletes, are overworked." Prof. H. S. Canby, Yale.
"Misdirected labor, though honest and well intentioned may lead to
naught. Among the most important things for the student to learn is how
to study. Without knowledge of this his labor may be largely in vain."
Prof. G. F. Swain, M.I.T.

"To students who have never learnt "How to Study," work is very often
a chastisement, a flagellation, and an insuperable obstacle to content-
ment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort.
Get a good start and make this year a highly successful one by sending
for this hand-book and guide NOW.

SECOND VARSITY SOCCER SEASON OPENS SATURDAY

With the first game of soccer
looming ahead, Coach Swasey is
adding the finishing touches to what
may later in the season be consid-
ered one of the premier aggregations
of the Eastern Conference so far as
soccer is concerned. Competition is
keen for many of the berths, and the
veterans are finding that they have
no powerful hold on their previous
positions. The men are worked out
daily and invariably finish off with
a fast scrub game, in which the first
string team has so far succeeded in
capturing the larger end of the score.

The game is to be called at 1.30
sharp. An admission of thirty-five
cents is to be charged. Students
tickets do not admit to this game.
Urving Simpson, captain of the
Sanford Soccer Club, will officiate.

Earlier in the week Coach Swasey
gave out the following line-up as
the one that he would probably use
when the varsity start the season
off Saturday with Northeastern
here.

Morrison.....O. L. F.

Wakefield.....J. L. F.

Whitehead.....C. F.

Pilbury.....R. F.

P. K. Clark.....O. R. F.

Kirk.....L. H. B.

Currier.....C. H. B.

Bemis.....R. H. B.

W. Evans.....L. B.

Ramsay.....R. B.

Pulsifer.....G.

As a whole, the team is light and
rather short, but their speed and
cleverness more than offset any of
their quantitative short-comings.

The fact that Dartmouth has made
its New Hampshire game one of its
four letter contests of the season,
points out in what light the ad-
versaries of the varsity consider it
The schedule includes many of the
leading colleges of the East.

ALPHA CHI SIGMA PLANS TO HOLD "KEG-PARTY"

Alpha Chi Sigma, the professional
chemistry fraternity of the univer-
sity, will hold its annual "keg-
party" within the next two weeks.
The date to be announced shortly.
The party will take place in Conant
Hall and all men taking chemistry
will be invited, freshmen included.
It will be a smoker with cider and
doughnuts for refreshments. Prof-
essor James will tell of his vaca-
tion experiences.

The fraternity, which meets on
Thursday afternoons, consists of
men who are taking up chemistry
as a life-work or who show a
special aptitude for this subject.
The society is open to upper-class-
men only and the bidding takes
place the last term of the year at
the same time that the election of
officers is held. The officers for the
present year are John Cronin, Mas-
ter Alchemist, P. W. McIntire, Vice-
Alchemist, P. B. Kinsman, Record-
ing Secretary, and Roswell Evans,
Treasurer.

FORESTRY CLUB HOLDS FIRST MEETING OF YEAR

The Forestry Club held the first
meeting of the year in Morrill Hall
on Wednesday evening, the four-
teenth, for the purpose of electing
officers for the year. The club now
contains about twenty-five men who
find that the club not only serves
the purpose of bringing those stu-
dents interested in forestry together
but that it is a valuable aid and
stimulant to the student who is
making forestry his life work.
